

"I believe that being an orthodontist is very rewarding because I am able to make a positive impact on my patients' lives, and that it is never too late to work on improving yourself and your appearance. Orthodontics is more than creating beautiful smiles . . . It gives me the opportunity to make my patients happy and give them a more confident self-image."

Dr. Daniel Azani, D.D.S., M.S.

"In order to help you get the straighter, more beautiful smile you've always wanted – the one you deserve – I can create an individualized orthodontic treatment plan that works with your lifestyle and your particular needs."

"Friendly, personalized orthodontic care will make your visits a positive and enjoyable experience. By offering you the latest advances in orthodontics, you are getting a more well rounded range of skills that guarantee you the results you want. I believe that you will appreciate this level of advanced care, plus the friendliness that goes with it."

- [DDS] Universidad Tecnologica de Mexico
- [Postgraduate Degree] University of Michigan
- [MS] University of Michigan
- [Undergraduate Studies] Universidad Tecnologica de Mexico
- [MEMBER] American Association of Orthodontists; Pacific Coast Society of Orthodontists.

When he's not creating healthy, beautiful smiles for his patients, Dr. Azani enjoys being dad to his seven (7) children!
